When you have your portrait taken you need not pay 6000 ones to ensure that you must go to a place where not only the photographer but the artist who takes the portrait is a specialist in the art of making the most of your features, the most suitable light and graceful pose.

The photographer lowers his prices to make his portrait as attractive as possible. He does not make the necessary time to take a portrait of a man, but he takes the time to take a portrait of a woman, and he takes the time to take a portrait of a child.

It is true that the photographer has found a way to make his portrait as attractive as possible. He does not make the necessary time to take a portrait of a man, but he takes the time to take a portrait of a woman, and he takes the time to take a portrait of a child.

The proposal has been well received, and the French Government is considering it, and its acceptance or rejection will depend on the course of events from now till the end of the year, and the relations between the two countries after the renewal of the Italian Parliament.

LAND NEAR THE CITY.

The sale reported yesterday, of 300 cuadras or 1,200 acres, of land near Glaw station, within 20 miles of our city, for the sum of \$50,000 currency offered for reflection. The price reduced to gold is only 23,000 sterling, or 50 shillings per acre, and we know of no part of the world where land at this distance from a city of 500,000 souls can be bought so cheap. It would be worth \$50 an acre in Europe under like circumstances, or 20 times the price here offered; even in the United States of Australia it would probably have fetched 10 times as much.

In Buenos Ayres we are always appearing in the streets. To say nothing of the absurd prices that ruled during the boom of 1888-89 we call to mind that 20 years ago the ordinary price of suburban lands in Flores and elsewhere was \$1 gold per acre, that is, \$25,000 per cuadra or \$4,000 sterling per acre. The same lands may now be had for one fourth of that price, and yet nobody in 1870 considered the prices then paid extravagant. We are forced to conclude that there is no approximate standard of value for suburban lands in this country, seeing that the population of our city has doubled since 1870, and that values ought to have doubled likewise.

When we consider the fact that the population of our city has doubled since 1870, and that values ought to have doubled likewise. When we consider the fact that the population of our city has doubled since 1870, and that values ought to have doubled likewise.

WEDDING AT THE MERCED CHURCH.

The following are among some of the guests who attended the wedding ceremony at the Mercé Church, which took place on Wednesday last in the church of the Mercé.
The Rev. S. O'Reilly, who had the happy privilege of performing the ceremony, having proposed the honours to the day, the health and happiness of the happy bride and bridegroom, and in supporting the toast which had been so nicely given, said:—
Ladies and Gentlemen—I feel I cannot allow the occasion to pass by without paying a small but special tribute to the happy bride and bridegroom, and in giving the privilege of adding a few words to what our esteemed and rev. friend, S. O'Reilly, has so fittingly said.
It has been my pleasure and my good fortune to have known this good lady, the bride, almost from the time of my arrival in this country; and I have, indeed, a pleasure to me to say here to-day that it is the intensity of the respect which I, and which I am sure we all, entertain towards her that, as it were, compels me to give, however inadequate, expression to it at such a time as the present. For, as I have said, I have known her from the time of my arrival in this country, and I have, indeed, a pleasure to me to say here to-day that it is the intensity of the respect which I, and which I am sure we all, entertain towards her that, as it were, compels me to give, however inadequate, expression to it at such a time as the present.
